

Job Summary

The role of MCHP tutors is to provide our students a professional environment to reinforce curriculum subject matter through vibrant, engaging, and outcomes-driven learning experience in a small and pioneering educational environment. Working with the support of fellow faculty, deans, and staff, MCHP tutors are welcomed to innovate, expected to support, and encouraged to laugh.

MCHP tutors assist students from all programs regardless of their enrollment status. Tutors use a variety of modalities (one-on-one, small group, online, face-to-face, and hybrid) and have experience and comfort with academic technology, support interprofessional education, and are willing to actively engage in innovation. Tutors are tasked with creating effective student learning experiences that support student success.

QUALIFICATIONS

- High School diploma or HiSET
- Enrollment in a healthcare related field of study
- Willingness to work according to a flexible schedule (evenings and weekends may be required)

PREFERRED QUALIFICATIONS
