Presentation: 4th International Congress of Health Education & Research

Student Feedback

"I had a great time today! I am proud to attend a school that does this for the community. I would love to be a part of it again."

"I found this session to be humbling and incredibly informative. Please continue to offer this experience for students!"

"Thank you for having us, it really is an eye-opening experience that I will take with me in my nursing career and help with my assessments. In life in general, I will use what we learned to be more present in the moment and attentive to detail while not making quick judgments and thinking critically."
